

Without a Hitch

New Directions in Prefabricated Architecture

2008 Wood Structures Symposium
& ACSA Northeast Fall Conference

September 25-27, 2008
Campus Center, University of Massachusetts, Amherst, MA

www.woodstructuressymposium.com

About the Symposium

Light on the environment and cost effective, prefab construction is on the rise. Join us this September to discuss the art and science of contemporary prefabricated architecture.

Speakers

Stephen Kieran Kieran Timberlake Associates

Tedd Benson Bensonwood Homes

plus 1.5 days of project and research presentations by industry and academic professionals.

Who Should Attend

Architects, Engineers, Specifiers, Builders, Building Inspectors, Educators and Students.
AIA CEUs, including HSW, will be available.
